

DEMOCRATIC LEADERS PLAN NEXT CAMPAIGN

Session Held at Atlantic City Expected to Establish Definite Working Program.

WOMAN MEMBER ATTENDS

Indications Are That National Headquarters Will Be Established in Many Large Cities Throughout the Country Prior to 1920.

ATLANTIC CITY, N. J., Sept. 25.—The Democratic National Committee held an executive conference here today at which preliminary details for the Democratic campaign were discussed. The session was presided over by Homer S. Cummings, chairman, and probably will continue until Saturday. Other who are expected to attend the meeting include Carter Glass, secretary of the Treasury; Attorney-General A. Mitchell Palmer; W. D. Johnson, treasurer of the committee; John W. Coughlin, J. Bruce Kremer, John T. Barnett, A. F. Mullin, Clark M. West, J. H. Hill, executive secretary, and Mrs. George Bass, chairman of the Women's section. It is the next forty-eight hours these leaders have with the conference. To insure the reelection of President Wilson if he finally concludes to run for a third term.

To try to rescue the league of nations covenant from the defeat which would result if it is rejected by the United States Senate.

The program for the coming campaign as outlined by Mr. Cummings and Mr. Johnson, includes:

National headquarters in four or five cities instead of in New York and Chicago.

Collection of the biggest possible campaign fund.

Plan to establish a central Democratic national headquarters in New York, with subsidiaries in New York, Chicago, Denver, Seattle and San Francisco or Portland, Ore. It was tonight will mean the raising of a much larger campaign fund than the \$2,000,000 contributed to re-elect President Wilson in 1912.

LATIN-AMERICANS SPEAK TO ADVERTISING CONVENTION

Declare Trade Follows Investment, Explaining British Success in Argentina.

NEW ORLEANS, Sept. 25.—How to secure and hold Latin-American trade was explained to delegates at the closing session here today of the Associated Advertising Clubs of the World by speakers from Mexico, Argentina and Cuba.

Miguel Carpio, of El Heraldo de Mexico, who was the spokesman for the party who presented the case of Mexico to President Wilson, declared every agency of publicity available in Mexico should be used to attract advertising and legitimate news matter throughout the republic.

Bernie Gil, representing La Nación, of Buenos Aires, told the delegates Americans were the best liked foreigners in Argentina. He cautioned them, however, that trade in modern days does not always follow the flag. "It follows investment," he said, "and that is the reason why Great Britain with a billion dollars invested in Argentina without a dollar's loss, has a large volume of business from our country."

Election of E. T. Meredith, of Des Moines, Iowa, unanimously, as president and the adoption of resolutions urging Congress to develop inland waterways featured the closing session.

WORLD IS STILL SAFE FROM ATOMIC FORCE

Scientists Have Failed to Find Any Way to Utilize Great Power.

CAMBRIDGE, Sept. 25.—Commenting on the address delivered recently before the Midland Institute at Birmingham, England, by Sir Oliver Lodge, in which the eminent British scientist declared that the atomic energy of matter could make the world unsafe for the present, as it is bound up in a way which scientists have yet to discover.

Experiments have been in progress at Harvard, he said, for several years seeking to discover the properties of matter, but no method has yet been found by which the atomic energy can be utilized.

STILL IN STATE OF WAR SO SOLDIERS CAN'T VOTE

Attorney-General Newton's Opinion Is Transmitted to Secretary of State.

ALBANY, Sept. 25.—Holding that a "state of war" within the intent and meaning of the Constitution and laws of the United States exists, Attorney-General Newton has ruled in an opinion transmitted to Secretary of State Hughes, that the soldier and sailor vote must be taken this fall.

The Constitution of the State provides that in time of war the soldier and sailor vote must be taken by the Secretary of State. The Attorney-General considers that the state of war will exist until the peace treaties with Germany and Austria are ratified.

HUGE THROING HEARS PRESIDENT'S VIEWS

Tells Denver, Col., People That Issue in Peace Treaty Discussion Is at Last "Clearly Drawn."

down about the question of reservations

DENVER, COLO., Sept. 25.—Declaring the issue in the peace treaty discussion at last had been "clearly drawn," President Wilson said in an address here today that the "question squarely facing the nation was whether the United States would keep its pledges to guarantee the peace of the world."

Of all the subject matter in the treaty, aside from the league covenant, Mr. Wilson said, the shanting provision was the only one criticized. That objection now had been cleared away, he continued, as had the lesser objections against the covenant itself. He asserted that the whole discussion now had settled down upon the heart of the league of nations covenant—the guarantees of Article X. Adoption of a reservation like that proposed in the Senate, he declared, would be equivalent to rejection of the treaty.

The President's declarations repeatedly cheered by a crowd which packed the Denver Auditorium, said to hold more than 10,000. Presumably he had been greeted with upsurges of cheering in the city of an automobile route through the principal streets.

The President touched briefly upon the voting power of the British empire in the league assembly, saying that he would have to have "the biggest army in the world" and there would have to be conscription and heavy taxation.

"A wholesome moral clearing-house" was the way the President characterized the covenant provision under which disturbing questions could be brought up for discussion by the league. "That provision," he said, "would make such questions known to the business" while hitherto international law had meant "minding your own business, particularly when something outrageous is in."

CHARGE JAPAN IS VIOLATING 'GENTLEMEN'S' AGREEMENT

Pacific Coast Citizens Urge Exclusion and Deportation of All Asiatics.

WASHINGTON, Sept. 25.—Japan is violating the immigration barriers to this country intended to be raised by the so-called gentlemen's agreement, V. S. McClatchy, of Sacramento, Cal., and Miller Freeman, of Seattle, Wash., today told the House Immigration Committee.

They urged adoption of a policy of excluding all Japanese and other Asiatics and the deportation of Asiatics already in this country. The committee is considering immigration legislation and the witnesses appeared to oppose particularly the admission of Asiatics on a mathematical scale based on those already here.

Mr. McClatchy declared the situation on the Pacific Coast was only an example of what could happen elsewhere. "It is finally resulting in the United States being made a Japanese province," he said.

The question is purely an economic one, not a racial one, declared Mr. McClatchy, who assailed the making of the gentlemen's agreement as "a serious blunder."

Both witnesses asserted that the white race was hopelessly unable to compete against Japanese economic competition.

WILL PUT FOREIGN LOANS IN LONG TERM SECURITIES

None of Allies Expected to Be Able to Meet Interest Charges at This Time.

WASHINGTON, Sept. 25.—Negotiations will be put under way soon for the funding of the allies' obligations to the United States into long term securities. Approximately \$10,000,000,000 of war credits have been advanced to the allies, covered by short term notes.

None of these is expected to be able to meet the interest charges on the outstanding notes, which will be taken care of in the details of the funding agreement. Yet a "great" and "great" Britain is the largest debtor to this government, owing about \$4,000,000,000, France and Italy owing more of the remainder.

THE ENGINEER WAS WARNED IN TIME

William F. Tanner, of Fulton Hill, Richmond, Relates an Interesting Story.

HE SUFFERED WITH INSOMNIA

For Forty Years He Drove His Engine Over the C. & O. Railroad.

When the stomach, liver and kidneys are overtaxed with the poisonous matter they cannot get rid of through the proper channels and pass it on through the blood and system, resulting in constipation, indigestion, dyspepsia, headache, backache, sleeplessness, sluggish mind, nervousness, cold feet, night sweats, etc. Plant Juice, the new herbal system tonic, acts like a miracle, purifying the blood, and washing out the poisonous matter and cures the diseased conditions of the stomach, liver and kidneys.

Daily local people are coming forward with testimonials in signed statements of the wonderful benefit they have received. One of the latest is that of Mr. William F. Tanner, who resides at Fulton Hill, and has been an engineer on the C. & O. R. R. for the past 40 years. Mr. Tanner is a man of the utmost honor and integrity, and beside being one of the oldest and most respected men in the service, he has a wide circle of friends in this section of the country. He said:

"For years I have been troubled with my stomach and had terrible indigestion. I had to be very careful about what I ate and could not get any sleep at night. I felt weak and miserable until I began to take your medicine, Plant Juice. I found almost immediate relief, and now my stomach is in good condition. I sleep well, and my entire system has been built up. I am glad to recommend Plant Juice to others."

Such words as these and those of many others which have been printed have wide influence, for they come from men of standing and integrity who have given Plant Juice a fair trial and have been greatly benefited thereby.

The Plant Juice Man is at the Frigate Drug Company's store, in Richmond, where he is daily meeting the local public and introducing and explaining the merits of this remedy. Free samples given.
